DIRECTOR, PRODUCT MANAGEMENT - DIGITAL COMMERCE & CONVERSION

- Consumer eCommerce product leader with 14 years building and scaling purchase funnels, checkout experiences, and digital merchandising across high-traffic platforms
 - Brings both engineering depth (6 years as lead software engineer) and product leadership breadth across entertainment, financial services, and consumer media
 - Practitioner of structured experimentation: built an organization's first A/B testing program from scratch and ran it for 4 consecutive years, coaching teams from intuition-driven to evidence-based decision-making
 - Operates at director level across product, content, development, SEO, and experimentation disciplines
-

Professional Experience

Director, Product Management

SeaWorld Parks and Entertainment (United Parks & Resorts) | 2021 - Present

- Owned eCommerce performance across **12** consumer websites, covering product, cart, checkout, performance, analytics, and SEO impacting hundreds of millions in annual revenue
- Delivered **\$8-10M+** annual revenue impact per major initiative by optimizing purchase funnels, pricing clarity, urgency signals, and upsell mechanics across 12 consumer websites
- Increased checkout conversion by reducing transaction failures from near **20%** to mid-single digits, protecting **\$10M+** in annual revenue
- Generated **\$3-5M** in incremental annual revenue by improving organic discoverability for high-intent search traffic
- Improved site performance (page load time **-15%**, key actions **+44%**), contributing to higher conversion and lower cart abandonment
- Established the organization's first experimentation-driven product strategy, identifying and validating growth opportunities through **75+** A/B tests per year across **4** consecutive years, prioritizing high-ROI improvements before engineering investment
- Coached and developed product managers, replacing intuition-driven decisions with structured, evidence-based practices across experimentation design, analytics interpretation, and roadmap prioritization

Product Manager, Digital Product Development

Prudential Financial | 2015 - 2021

- Delivered **\$350M** in AUM retention and contributed to **\$10B** in new client assets by launching the company's first consumer mobile app
- Improved app ratings from **1.8 to 4.8**, reaching **844K+** downloads and sustaining **100K** monthly active users through focused product improvements and go-to-market execution
- Rebuilt retirement B2C and B2B account management and transactional features, focusing on mobile and accessibility

Senior Product Manager

AccuWeather | 2011 - 2015

- Drove **150%** growth in mobile advertising revenue (approximately **\$10M** annually) through mobile product redesigns across iOS, Android, and partner platforms
- Scaled mobile user base from **1M to 35M** users, improving long-term engagement and retention
