DIRECTOR, PM - EXPERIMENTATION & GROWTH ANALYTICS

- Built the organization's first experimentation program from scratch, establishing a repeatable A/B testing framework that became the enterprise standard for all digital product decisions
 - Co-authored peer-reviewed research in *Econ Journal Watch* (March 2026) alongside Nobel laureate Guido Imbens and experimentation pioneer Ron Kohavi, using a **2.9M**-sample AEA-registered RCT on SeaWorld's eCommerce platform
 - Recognized externally for experimentation excellence: Optimizely Award 2022 "Best Experimentation Practice" and Quantum Metric CPD Signal Award 2022
 - Coaches product managers and senior executives from intuition-driven to evidence-based decision-making across experiment design, analytics interpretation, and investment prioritization
-

Professional Experience

Director, Product Management

SeaWorld Parks and Entertainment (United Parks & Resorts) | 2021 - Present

- Established the organization's first experimentation-driven product strategy, identifying and validating growth opportunities through **75+** A/B tests per year across **4** consecutive years, prioritizing high-ROI improvements before engineering investment
- Built analytics and experimentation capabilities used by senior executives to guide pricing, website design, and capital investment decisions
- Established guardrails (revenue per visitor, failure rates, refunds, downstream behavior) to prevent false-positive wins and protect downside risk across all digital experiments
- Delivered **\$8-10M+** validated annual revenue impact per major initiative through controlled experiments across purchase funnels, pricing, and checkout
- Coached and developed product managers, replacing intuition-driven decisions with structured, evidence-based practices across experiment design, analytics interpretation, and roadmap prioritization
- Increased checkout conversion by reducing transaction failures from near **20%** to mid-single digits, protecting **\$10M+** in annual revenue
- Owned eCommerce performance across **12** consumer websites, covering product, cart, checkout, performance, analytics, and SEO impacting hundreds of millions in annual revenue

Product Manager, Digital Product Development

Prudential Financial | 2015 - 2021

- Delivered **\$350M** in AUM retention and contributed to **\$10B** in new client assets by launching the company's first consumer mobile app, demonstrating 0-to-1 product building with sustained, data-driven improvement
- Improved app ratings from **1.8 to 4.8**, reaching **844K+** downloads and sustaining **100K** monthly active users through continuous data-driven product improvements
- Pioneered the first authenticated Alexa skill in the retirement industry, validating adoption of an emerging platform category before broader investment

Senior Product Manager

AccuWeather | 2011 - 2015

- Led strategic planning and launch of **25+** consumer and partner-facing products in three years, applying data-driven prioritization to drive **150%** growth in mobile advertising revenue
- Scaled mobile platforms from **1M to 35M** users through product decisions grounded in engagement metrics, search rankings, and retention data

Earlier Career

Lead Software Engineer | Robert Bosch, Visteon, Schneider Electric | 2003 - 2009

Recognition

Optimizely Award 2022 - "Best Experimentation Practice" | Quantum Metric CPD Signal Award 2022 | P&I Eddy Award 2019 | Globee Awards Judge (50+ evaluations) | UConn EBV Program Judge

Core Skills

Experimentation & A/B Testing | Metrics Definition & Governance | Data-Driven Product Management | Growth Analytics | Decision-Grade Analytics | Evidence-Based PM Culture | Product Strategy & Roadmapping | Optimizely | Google Analytics | Quantum Metric | Cross-Functional Leadership | Executive Decision Support | Agile/Scrum

Education

MBA, Marketing - Penn State University (2011) | Bachelor of Engineering, Telecommunications - PES Institute of Technology, India (2003)
